

BRAINways
EDUCATION
excellence through education

Complementing the offering of the intensive 7251EPS: Gifted and Talented (a course part of the Masters of Education Studies), Academicus is a program which allows gifted and talented students the opportunity to work with experts in Gifted Education, and teachers enrolled in the course the opportunity to observe experts in Gifted Education at work and to apply their learning to classroom situations.

Therefore, Griffith University in conjunction with BRAINways EDUCATION invites gifted and talented students of the Gold Coast to participate in:

ACADEMICUS: Imagination Theatre

This workshop is part of a four workshops program developed by BRAINways EDUCATION.

Einstein said: 'Imagination is more important than knowledge'. This series of workshops helps students to tap into their creative juices and follow it wherever it leads! An award winning author will pack a suitcase of music, images, stories, tricks, tools and toys to get their mind and body moving, as well as their pen! By the end of the workshops, the students would have visited many new and exciting places created entirely by them, have stories and characters on paper, and, most importantly, they would have found keys to unlock their creativity whenever they want to.

A program for students year levels 1-3.

Program developed and presented by BRAINways EDUCATION.

Program Dates: Tuesday, 28 September, 2010

Program Times: 9.30am - 12.00pm (please arrive 15 minutes early for registration)
