INDICATION OF GIFTEDNESS FORM

QAGTC Challenge offers workshops for the gifted aimed at providing invaluable opportunities for gifted youngsters to experience the excitement of extending their learning in novel and engaging workshops where they will mix with like minds and be encouraged to explore their potential. Students are recognised as gifted when they can operate at levels of learning well above that which is normal for their age peers. Gifted education programs are designed to provide opportunities to engage with tasks achievable by students two years in advance of a gifted child's chronological age.

STUDENTS:

Remember when you select a workshop that you will be working at a level two years in advance of your current school year level.

PARENTS, PLEASE NOTE:

Some indication of giftedness, or ability to work at advanced levels in greater depth and complexity, is recommended for your child/ren to participate in these workshops. It would not be fair on the participants to nominate children who are not capable of working at advanced levels. Nor would it be appropriate to expect leaders to lower the challenge level of their workshops to accommodate children who do not have high ability. We appreciate that some gifted children may not demonstrate high achievement at school and therefore we will accept parent nomination and signature. Parents will be given a one month Interim Membership as a result of registering your child in this year's challenge and this entitles you to receive a past Mindscape Magazine and to attend a parent information session both provided on the day of challenge.

PLEASE READ AND SIGN BELOW:

I acknowledge that the Challenge workshops are designed for gifted students who are capable of attempting work (not necessarily to the extent of mastery) approximately two years in advance of chronological age. I believe that my child/ren has high ability and will accept this challenge and strive to excel in the workshop/s.
